ECG Machine

The ECG is one of the most under utilized diagnostic parameters in veterinary medicine. An ECG is an absolute necessity for proper cardiac diagnostics. The Jorvet Single Channel ECG and monitor offers what veterinarians need at a very reasonable price. The all-important lead II rhythm strip can be run for screening purposes; and if further evaluation is deemed necessary, all 6 common leads can be run for more thorough diagnostics.

Portafuge

The portable 8-place Porta-fuge is an economical fixed speed centrifuge designed for spinning on the go. This unit accommodates most test tubes from 3ml – 15ml. This unit is virtually maintenance-free and the lid port allows easy viewing of specimens while in use. Simply insert the cigarette plug into your car's power outlet for quick blood separation at 3300rpm.

Advantages:

- Portable, 12v unit, works in any car
- Lightweight
- Quiet, vibration-free operation
- Space-saving design

Features:

- Angled head rotor
- 8-tube capacity – 3ml to 15ml size tubes
- 3000-3500 rpm fixed speed (speed may vary by car model)
- Auto-off 30-minute timer with bell
- 12v DC motor – maintenance free
- Blue LED power indicator light
- Suction-cupped feet prevents slipping
- 80-watt power requirement
- Maximum RCF = 1300-1500 g

Includes:

- Eight-place tube rotor
- Eight 15ml tube sleeves
- Eight 13x75mm tube sleeve inserts
- Lid Safety Switch
